

Stay Ahead - Stay Alive: Tips on Situational Awareness

Join us for an interactive evening of safe flying topics. We will follow a scenario: VFR into IMC and discuss options. What would YOU do? A different spin on the OODA loop; but don't confuse it with your favorite breakfast cereal. Lockheed Martin - FSS is taking it to the next level. It's really improved from the days of telephone briefings. The new tools on their website will knock your socks off. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: Please see map link for directions. The seminar will be held in the main room in the Terminal.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
